"First of all, I just want to thank you again for the workshop. I got a lot out of it! The very next day, I went to the studio to work on something that's been on my easel for over 9 months, and, with trepidation in my heart and hands, laid down an abstract background of shapes, colors, darks and lights etc just like you showed us. Oh my God, was I ever nervous! But it turned out great and just started making itself from there. Cool!"
